

CLAIMS

I claim:

1 1. A ski lift blanket to aid in keeping a skier warm while
2 riding on a ski lift, comprising:

3 a fabric sheet defining a main body of the blanket and
4 having a high collar extending from the main body adapted for
5 covering a face of the skier;

6 at least two inside pockets disposed on the main body
7 dimensioned and configured for gloved hands, whereby the skier is
8 able to hold the ski lift blanket closely;

9 a belt having opposing ends and mating hook and loop
10 fasteners disposed on the opposing ends, the belt being positioned
11 at a lower section of the main body and being adapted for
12 fastening around the skier's waist; and

13 at least two straps having hook and loop fasteners disposed
14 thereon, the straps extending from the main body, whereby the
15 blanket in rolled up and secured by the straps when not in use by
16 the skier.

1 2. The ski lift blanket according to claim 1, wherein the
2 main body and face shield are constructed of a wind-resistant and
3 water-resistant material flexible enough to allow the ski lift
4 blanket to be folded and rolled up.

1 3. The ski lift blanket according to claim 1, wherein the
2 main body has multiply layers and one layer is reflective.

1 4. The ski lift blanket according to claim 4, wherein the
2 reflective layer is made from aluminum.
